

The Quill Falcon Cyclone 120 is possibly the most flexible of the Quill Falcon range. The Quill Falcon Cyclone 120 has the ability to be more powerful than the Quill Falcon 60 yet is more portable than the Quill Falcon 200 when full of water and blast media.

The Quill Falcon 120 therefore lends itself perfectly to both large and small projects alike giving customers the flexibility to handle a wide variety of jobs. With a vessel capacity of 121 litres, blast media refill times are extended up to 8 hours thereby making projects that little bit faster and easier.

DIMENSIONS

 Capacity:
 121 litres

 Height:
 1270mm

 Width:
 630mm
